

iTrans WP100HC Disable HDCP Guide

Check wp100hc rx fw version

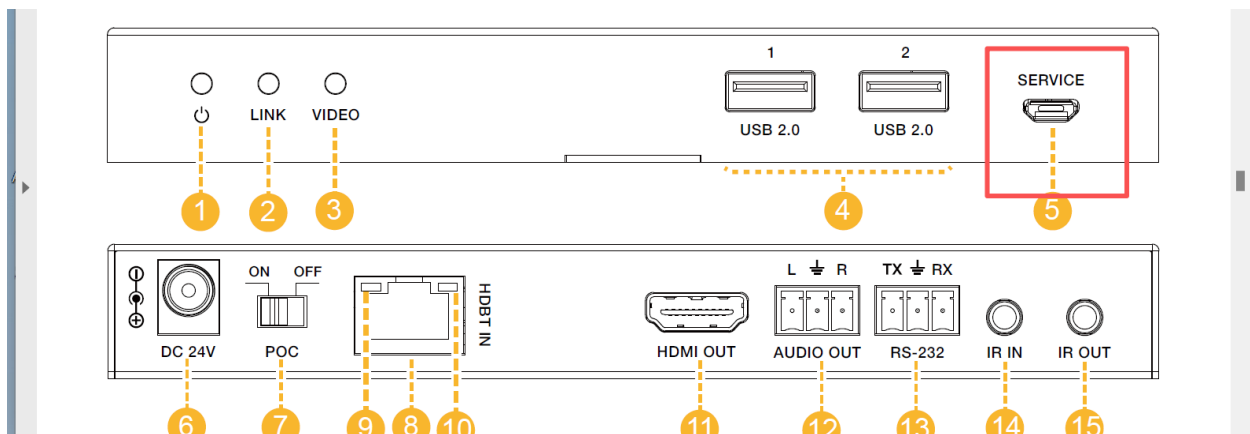

Software version: V1.08.07.

HDCP Instructions:

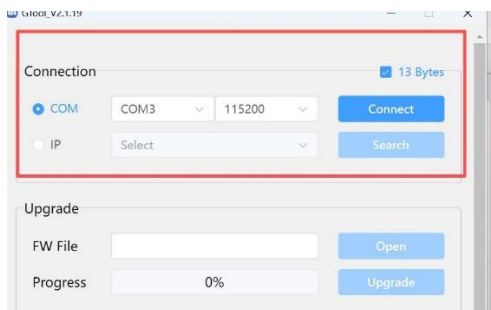

s hdcp off!: Set output HDCP off.

s hdcp on!: Set output HDCP on.

r hdcp!: Reads the HDCP on/off configuration.

Use this software Infobit GTool vxxx.exe to check the software version on the RX end. If it supports this version, you can send a command to shut it down. If not, you'll need to upgrade the firmware.

you should be able to see the software version of the MCU at the bottom of the software.
